University of Pennsylvania

About the Buerk Center for Entrepreneurship

Foster School of Business, University of Washington

Founded in 1991, the Buerk Center offers an exceptional curriculum, real-world experiences, and connections to the Seattle entrepreneurial community to inspire students from all majors and disciplines across campus to pursue their entrepreneurial passions.

While our core curriculum focuses on entrepreneurial strategy, finance, and marketing, our electives run the gamut from Venture Investing to Software Entrepreneurship, from Grand Challenges for Entrepreneurs to Biomedical Entrepreneurship. The Buerk Center focuses on the strengths of the University of Washington and Seattle, and creates new courses that capitalize on those strengths.

Seattle is also a magnet for entrepreneurs. It has an entrepreneurial culture, research powerhouses, support for early-stage entrepreneurs, sources of capital, a talented pool of workers, and a strong media to tell startup stories.
